🚀 Quick Start

Local Development

1. Download all files to a folder
2. Open `index.html` in any web browser
3. The website will load locally

Deployment Options

Option 1: Netlify (Recommended)

1. Visit netlify.com
2. Drag and drop the project folder
3. Your site goes live instantly
4. Free subdomain provided

Option 2: GitHub Pages

1. Create a GitHub repository
2. Upload all files
3. Enable GitHub Pages in settings
4. Access via `username.github.io/repository-name`

Option 3: Traditional Hosting

1. Purchase web hosting
2. Upload files via FTP to `public_html` folder
3. Configure domain if needed

📧 Contact Form Setup

The contact form currently shows alert messages. For production:

Formspree Integration (Recommended)

1. Sign up at formspree.io

2. Create a new form

3. Update the form action in `index.html`:

html

```html
<form action="https://formspree.io/f/YOUR_FORM_ID" method="POST">
```

Netlify Forms (if using Netlify)

Add `netlify` attribute to the form:

html

```html
<form netlify id="contactForm">
```

🎨 Customization

Colors

Update brand colors in `styles.css`:

css

```css
/* Primary brand color (blue) */
--primary-color: #2c5aa0

/* Accent color (orange) */
--accent-color: #ff6b35
```

Logo

Replace text logo with image in `index.html`:

html

```html
<div class="nav-logo">
    <img src="logo.png" alt="Chinmay Advisory" height="40">
</div>
```
